

FP12-12

Datasheet

SPECIFICATIONS

Voltage

12 V

Capacity

12.0 Ah (20hr)

11.2 Ah (10hr)

DIMENSIONS & WEIGHT

Length	151±2mm
Width	98±2mm
Total Height	101±2mm
Gross weight	3.24kg

VRLA **NON-SPILLABLE**

VRLA batteries are general purpose batteries with 5 years design life in float service. With advanced AGM valve regulated technology, these batteries ensure high performance and reliability. They can also be used for light cycling use.

Other general purpose models are available in FULBAT INDUSTRIAL category.

FEATURES

- AGM technology
- VRLA battery
- Maintenance free, no water adding required
- Non spillable: easy to ship
- Deep discharge protection
- No corrosion
- Multi-positional fitment
- Low gassing
- Long shelf life
- Very good cycling and stationary performance
